

2021 Minnesota K-12 Academic Standards in Social Studies Draft Three

This draft represents the work of the social studies standards review committee, following two previous drafts and two rounds of public comment. Committee members are volunteers who represent the diverse perspectives of Minnesotans. This draft is currently open for public comment until December 14, 2021. This draft is also moving into the [rulemaking process](#).

Introduction

Minnesota's K-12 Academic Standards are statewide expectations for student learning in K-12 public schools. School districts and charter schools are required to teach these standards to ensure that all Minnesota students have access to high-quality content and instruction. An academic standard is a summary description of student learning in a content area and are comprised of one or more benchmarks. A benchmark supplements the standard and is the specific knowledge and/or skill that a student must master to meet part of an academic standard by the end of a grade level or grade band.

Academic standards are not curriculum. Curriculum are the resources, assessments, learning experiences and plans that educators use at the local level to instruct students on the content of the academic standards. By statute (Minn. Stat. 120B.021, subd. 2(b)), Minnesota academic standards do not require a specific curriculum. Districts, schools and educators make curriculum and instruction decisions to support the teaching and student mastery of standards. As a result, local school districts, schools and educators choose what curriculum is used and what classes are taught in their schools to ensure that students meet the academic standards. Ultimately, local educators make the decisions about *how* to deliver instruction to meet the rigorous learning expectations of the academic standards.

The Minnesota K-12 Academic Standards in Social Studies committee has 36 members, and includes K-12 teachers, administrators, college faculty, informal educators and community members. Minnesota Statutes outline who must be represented on the committee, including parents, currently licensed and in the classroom teachers, licensed school administrators, school board members, post-secondary institution faculty teaching core subjects and business community members.

The social studies content-area empowers learners to become inquisitive, informed, and engaged members of society who use critical thinking, inquiry, and literacy to prepare for civic life, college and careers. The review process centers on making revisions to the standards in social studies that will help prepare Minnesota students to learn, live, work and thrive in local and global societies.

This third draft of the Minnesota K-12 Academic Standards in Social Studies represents the work of the standards review committee since their first meeting in September 2020.

Organization of the Social Studies Standards

The Minnesota K-12 Academic Standards in Social Studies are statewide expectations for student learning in K-12 public schools. Academic standards contain one or more benchmarks at each grade-level. A benchmark is a supplement to the standard and is the specific knowledge and/or skill that a student must accomplish to meet part of an academic standard by the end of each K-8 grade-level. The social studies standards and benchmarks for the high school are grade-bands that are developed to provide structure for the content students must meet in the three and a half credits required for graduation. At the high school level specifically, the standards do not correlate to specific course names. The standards are the knowledge and/or skills that students must master to meet graduation requirements, and can be taught through locally determined courses.

The academic standards and their supporting benchmarks are organized into five strands: Citizenship and Government, Economics, Geography, U.S. and World History, and Ethnic Studies. The contributions of Minnesota's American Indian tribes and communities are integrated into each strand and all standards. Each of the strands have between three and six standards.

Ensuring that the standards reflect Minnesota's student population is a lens that has been used throughout the standards review process. This includes the interdisciplinary study of the social, political, economic, and historical perspectives of the diverse racial and ethnic groups in America.

The standards have also been reviewed to identify consistency in skills and knowledge across the subject areas, specifically with the English language arts (ELA) standards. When the ELA standards were revised in 2020, Literacy in History (2010) was removed and replaced with information and technical text; therefore, a workgroup of the committee reviewed the 2020 ELA Standards to ensure consistency and make connections with that document to create cohesion in learning for students.

The social studies standards are grounded in current research. The [*College, Career, and Civic Life \(C3\) Framework for Social Studies State Standards: Guidance for Enhancing the Rigor of K-12 Civics, Economics, Geography, and History*](#) is being used in revising the standards. The standards also include personal finance and/or financial literacy.

As outlined in the 2020-21 Social Studies Standards Committee's Guiding Assumptions, the committee is taking into account:

1. Designing standards that ensure opportunities for students to demonstrate an understanding of ideas, concepts, theories, and principles from the social studies disciplines by using them to interpret and explain specific, concrete information or events.
2. Designing standards that represent diverse points of view, experiences, and approaches to problem solving.
3. Designing standards using language that promotes culturally sustaining learning and that reflect students' cultural backgrounds.
4. Designing standards that provide students with multiple ways of demonstrating competence in social studies.

Public Comment and Rulemaking

We encourage all Minnesotans to provide feedback about this draft of the benchmarks via an online feedback survey from **November 15 – December 14, 2021**. A [public comment survey is available](#) and Minnesotans can find additional information, including a [questions and answers](#) document, on the [MDE social studies webpage](#). At the conclusion of the public comment period, the committee will review the feedback from the survey and continue to revise for a future draft.

Additionally, MDE has initiated the rulemaking phase of the standards review and revision process. The rulemaking phase includes a request for public comment via the Minnesota Office of Administrative Hearings (OAH) website. Note that the OAH public comment is focused solely on the **standards**, not the benchmarks. Interested persons or groups may submit comments or information on these possible standards in writing until 4:30 p.m. on January 14, 2022. Visit the [K-12 Social Studies](#) rulemaking webpage for more information.

Reviewing the Third Draft

The standards are coded to allow for the specific feedback on benchmarks as well as general feedback. A code is utilized for each of the benchmarks:

Code: Number = grade.level.strand.standard.benchmark

For example 3.1.4.1 = grade level 3, strand 1, standard 4, benchmark 1

In the code, “9” denotes a benchmark satisfactorily completed in high school as determined by a local district or charter school.

Strands:

- 1 – Citizenship and Government (Standards 1-6)
- 2 – Economics (Standards 7-12)
- 3 – Geography (Standards 13-17)
- 4 – History (Standards 18-21)
- 5 – Ethnic Studies (Standards 22-24)

Grades K-2

Grade	Strand	Standard	Code	Benchmark
K	1. Citizenship and Government	1. Civic Skills: Apply civic reasoning and demonstrate civic skills, including civic discourse, for the purpose of informed and engaged lifelong civic participation.	K.1.1.1	Demonstrate civic skills in a classroom that reflect an understanding of civic values by identifying a classroom goal and listing ways that students work together using civic skills to address a need or goal.
K	1. Citizenship and Government	2. Democratic Values and Principles: Explain democratic values and principles that guide governments, societies and communities, and analyze the tensions within the United States constitutional government.	K.1.2.1	Consider the groups you belong to and describe ways group members show they belong to the group.
K	1. Citizenship and Government	3. Rights and Responsibilities: Explain and evaluate rights, duties and responsibilities in democratic society.	K.1.3.1	List groups you belong to and name your role. Describe your responsibilities to each of those groups.
K	1. Citizenship and Government	4. Governmental Institutions and Political Processes: Explain and evaluate processes, rules and laws of United States governmental institutions at local, state and federal levels, and tribal nations.	K.1.4.1	Identify examples of rules in the school and neighborhood community and explain why they exist; describe incentives for following rules and consequences for breaking rules.

Grade	Strand	Standard	Code	Benchmark
K	2. Economics	7. Economic Inquiry: Use economic models/reasoning and data analysis to construct an argument and propose a solution related to an economic question. Evaluate the impact of your proposed solution on various communities that would be affected.	K.2.7.1	Use cost-benefit (pro/con) analysis as a group to solve a problem.
K	2. Economics	9. Personal Finance: Apply economic concepts and models to develop individual and collective financial goals and strategies for achieving these goals, taking into consideration historical and contemporary conditions that either inhibit or advance the creation of individual and generational wealth.	K.2.9.1	Distinguish between individual needs (conditions necessary to survive) and individual wants (conditions desired to be happy).
K	2. Economics	10. Micro: Explain and evaluate how resources are used and how goods and services are distributed within different economic systems. Analyze how incentives influence the decisions of consumers, producers and government. Evaluate the intended and unintended consequences of these decisions from multiple perspectives.	K.2.10.1	Distinguish between goods (objects that can be seen or touched) and services (actions or activities), and identify goods and services that could satisfy a specific need or want.

Grade	Strand	Standard	Code	Benchmark
K	2. Economics	12. Global/International: Explain why people trade and why nations encourage or limit trade. Analyze the positive and negative consequences of international trade and globalization on communities and the environment.	K.2.12.1	Explain why people agree to trade.
K	3. Geography	13. Geospatial Skills and Inquiry: Apply geographic tools—including geospatial technologies—and geographic inquiry to solve spatial problems.	K.3.13.1	Explain or show routes between locations using both fixed and dynamic maps from local to global scales.
K	3. Geography	14. Places and Regions: Describe places and regions, explaining how they are influenced by power structures.	K.3.14.1	Identify physical and human characteristics and find examples in my community and within stories.
K	3. Geography	17. Culture: Investigate how sense of place is impacted by different cultural perspectives.	K.3.17.1	Create a representation of your favorite place. Tell why it is important to you and how it makes you feel.
K	4. History	18. Change, Continuity and Context: Ask historical questions about context, change and continuity in order to identify and analyze dominant and non-dominant narratives about the past.	K.4.18.1	Ask historical questions about a past event in one's family, school or local community.

Grade	Strand	Standard	Code	Benchmark
K	4. History	19. Historical Perspectives: Identify diverse points of view and describe how one's frame of reference influences historical perspective.	K.4.19.1	Identify how different families and communities celebrate or commemorate events, and engage in respectful conversation about traditions within one's family/community and those of other families/communities.
K	4. History	20. Historical Sources and Evidence: Investigate a variety of historical sources by a) analyzing primary and secondary sources; b) identifying perspectives and narratives that are absent from the available sources; c) interpreting the historical context, intended audience, purpose and author's point of view of these sources.	K.4.20.1	Describe how people learn about the past by identifying different types of historical sources and asking what we can learn from those sources.
K	4. History	21. Causation and Argumentation: Integrate evidence from multiple historical sources and interpretations into a reasoned argument and/or compelling narrative about the past.	K.4.21.1	Use a variety of words to reference time in the past, present and future; identify the beginning, middle and end of diverse historical stories.
K	4. History	22. Connecting Past and Present: Use historical methods and sources to identify and analyze the roots of a contemporary issue and design a plan to address it.	K.5.22.1	Retell and discuss a story about diverse individuals or groups in the past that illustrate honesty, courage, friendship, respect and/or responsibility.

Grade	Strand	Standard	Code	Benchmark
K	5. Ethnic Studies	23. Identity: Analyze the ways power and language construct the social identities of race, religion, geography, ethnicity and gender. Apply these understandings to one's own social identities and other groups living in Minnesota, centering those whose stories and histories have been marginalized, erased or ignored.	K.5.23.1	Create a representation of oneself, including one's family and/or ancestors; discuss one's choices, describing what is special and important, including strengths and assets.
K	5. Ethnic Studies	24. Resistance: Describe how individuals and communities have fought for freedom and liberation against systemic and coordinated exercises of power locally and globally; identify strategies or times that have resulted in lasting change; and organize with others to engage in activities that could further the rights and dignity of all.	K.5.24.1	Retell a story about an unfair experience that conveys a power imbalance (your own or from a story you have read). Share what we can learn from this story.
K	5. Ethnic Studies	25. Ways of Knowing/Methodologies: Use ethnic and Indigenous studies methods and sources in order to understand the roots of contemporary systems of oppression and apply lessons from the past in order to eliminate historical and contemporary injustices.	K.5.25.1	Describe the importance of first peoples/Indigenous peoples' relationships to land, water and the non-human world.

3	1. Citizenship and Government	1. Civic Skills: Apply civic reasoning and demonstrate civic skills, including civic discourse, for the purpose of informed and engaged lifelong civic participation.	3.1.1.1	Identify ways that individuals become informed about public issues and diverse viewpoints. Demonstrate how to evaluate a source by distinguishing between fact and opinion.
3	1. Citizenship and Government	3. Rights and Responsibilities: Explain and evaluate rights, duties and responsibilities in democratic society.	3.1.3.1	Explain the principles of majority rule with minority rights and describe how civic discourse supports respect for diverse viewpoints.
3	1. Citizenship and Government	4. Governmental Institutions and Political Processes: Explain and evaluate processes, rules and laws of United States governmental institutions at local, state and federal levels, and tribal nations.	3.1.4.1	Describe the importance of the services provided by all levels of government and explain how taxes and fees fund government services.
3	1. Citizenship and Government	5. Public Policy: Analyze how public policy is shaped by governmental and non-governmental institutions, and how people and communities take action to solve problems and shape public policy.	3.1.5.1	Identify a local public problem and describe ways that individuals and groups can take informed action to influence decision makers to make a difference in the civic life of their communities.
3	1. Citizenship and Government	6. Tribal Nations: Evaluate the unique political status, trust relationships and governing structures of sovereign tribal nations and the United States.	3.1.6.1	Locate the 11 tribal nations of Minnesota and describe how tribal nations interact with local or state government.

3	2. Economics	8. Fundamental Economics Concepts: Analyze how scarcity and artificial shortages force individuals, organizations, communities and governments to make choices and incur opportunity costs, and how their decisions affect economic equity and efficiency.	3.2.8.1	Explain that producing any good or services requires resources; describe the resources needed to produce a specific good or service; explain why it is not possible to produce an unlimited amount of a good or service.
3	2. Economics	9. Personal Finance: Apply economic concepts and models to develop individual and collective financial goals and strategies for achieving these goals, taking into consideration historical and contemporary conditions that either inhibit or advance the creation of individual and generational wealth.	3.2.9.1	Identify possible short and long term consequences of different choices, while highlighting that not all individuals have access to the same choices.
3	2. Economics	10. Micro: Explain and evaluate how resources are used, and how goods and services are distributed, within different economic systems. Analyze how incentives influence the decisions of consumers, producers, and government. Evaluate the intended and unintended consequences of these decisions from multiple perspectives.	3.2.10.1	Explain that consumers have two roles: as sellers and buyers of goods and services; explain that producers have two roles: as sellers of goods and services and buyers of resources. Buyers and sellers are connected because one person's spending becomes another person's income.
3	3. Geography	13. Geospatial Skills and Inquiry: Apply geographic tools—including geospatial technologies—and geographic inquiry to solve spatial problems.	3.3.13.1	Interpret a map of a region in the ancient world by asking and answering spatial questions based on the map.
